President's Message

In the last Newsletter, Tim Balm put forward an interesting question: "Do you have a favorite article from past Newsletters?" This prompted me to take a look at my stack of past Newsletters and, since I have been an FICC member since 2005, it took me a while. I realized that the articles I enjoy the most fall into two broad categories.

First, there are those relating the First Issues to the history and geography of the countries. I have always enjoyed history, and philately is a pleasant way for me to learn more. A good example of these articles is one which appeared in V13N4, the very first Newsletter that I received. It was authored by our past President Bob Sylvester and was entitled "The First Issues of Equatorial Guinea (and Former Colonies)". Up until then I had not considered including change of government issues to my beginning collection but I found it to be quite logical and a good way to expand my knowledge – and to add to my collection.

The second category of articles I enjoy the most are those which force me to have a second look at the stamps already in my collection either to check their authenticity or to make sure that they are indeed the first issued. "The Suez Canal Company #1" by Tim Balm in V20N2 is a good example of that. After reading the article I was happy to see that my stamp was the real thing. But it also made me investigate this issue a little further. This led me to borrow a book on the subject from the APS library and to publish my findings in the following Newsletter.

So, do I have a favorite article? It is very hard for me to say because there are too many that I enjoyed. I like to think that my favorite one will appear in the next Newsletter. In all the years that I have been a member I have always appreciated the Newsletter and I would like to encourage those of you who have not yet contributed to do so. I am sure that you will find the experience most rewarding.

Fiji Scott #4

I could not find an explanation for the numbering anomaly in my references but just like you I assumed that the Scott Catalogue editors were expecting a 9d stamp on quadrille

paper to eventually show up. The same anomaly exists for Canada with no Sc#6. Again, it was probably assumed that a 12d black on wove paper was made.

Fiji Article in American Philatelist

A funny thing happened today (again). I received the AP [American Philatelist – the APS Journal] and on the last page Fiji was featured. [Ed: This is eerily similar to the blurb on a “collector gene” discussed by Louis in the V25N3 (July-Aug-Sep 2017) President’s Message which was followed by a similar discussion in Mick Zais’ “President’s Column” in the August 2017 AP Journal.]

I noticed in the [V26N2] newsletter that the image for the later reprint was missing – replaced by the early reprint (appearing twice). Would it be possible to include the correct image in the next newsletter?

New Novel with Stamp Theme

I just saw an advertisement in the latest edition of *American Philatelist* (June, 2018, p.591) about a new novel involving stamps. Title is **A MILLION DOLLARS AN OUNCE** by M. John Lubetkin. The ad says it is available from Amazon Books. The promo for it states, "As Hitler's empire crumbles in 1945, an American paratrooper seizes millions of dollars in rare stamps looted by Nazis during the war. However, ... to sell the stamps, he must put his trust in Meyer Lansky, the brains behind Lucky Luciano's mob. Unbeknownst to them, the Nazi behind the looting is released from prison and will stop at nothing to get "his" stamps back." ... I have not read this book, so can not endorse it as an entertainment product.

Thanks for the heads up! I'm going after a copy immediately. Of course you know about Lawrence Block and his books starring John Keller. ... Anyhow, thanks for bringing Lubetkin's novel to our attention.

Minimum Bid Pricing For Auction Stamps

By Tim Balm, FICC #91

Much of the time, members who submit stamps for the FICC auctions request that I (as auction manager) set the minimum bids. For many years I struggled with this task. When I became auction manager in 2002, my rule of thumb was to start all “sound” stamps at 35% of SCV. Damaged stamps had lower percentages of the SCV.

Somewhere between 2008 to 2010, I established a more flexible procedure for determining the minimum bids. I start with 50% of SCV for MNH stamps with VF centering. From there, I reduce the percentage as stamp centering declines from VF to F/VF to F to Avg. I also reduce the percentage of SCV as the condition declines from MNH to MLH to MHR to MNG. I never set a minimum bid for a sound stamp at less than 30%

of the SCV. For stamps with faults, I list the fault in the description and set the minimum bid from 30% of SCV (for a very minor fault) down to 5%-10% for stamps with pin holes or tears, etc. Stamps where pieces are missing (or other faults that are commonly named “space filler”) have a minimum bid of 2%-5%. [Note: “SF” stamps must have a high catalogue value to be listed – thereby offering such stamps to members whose budget doesn’t allow acquisition of a sound copy.] Clearly, this algorithm for minimum bids is totally arbitrary.

Correction to V26N2 Fiji Article

Dr. Louis Laflamme's article in the V26N2 edition of First Issues contains an error by the editor. The picture of the 1888 reprint as shown on page 4 of that Newsletter is actually another picture of the 1876 reprint shown to its left. The correct pictures of both reprints are shown below – along with the associated text (reprinted for context). The editor apologizes for this error.

“All the stamps of both issues are rare and rarely offered for sale so it is not surprising that on two occasions in 1876 and 1888 the owners of the newspaper, at the request of collectors, produced official reprints of the rare stamps to fill album spaces. These reprints, made with papers different from the originals, pose no great difficulties if you are familiar with what the real stamps should look like.

Interesting Changes in Volume 3 of 2019 Scott Catalogue

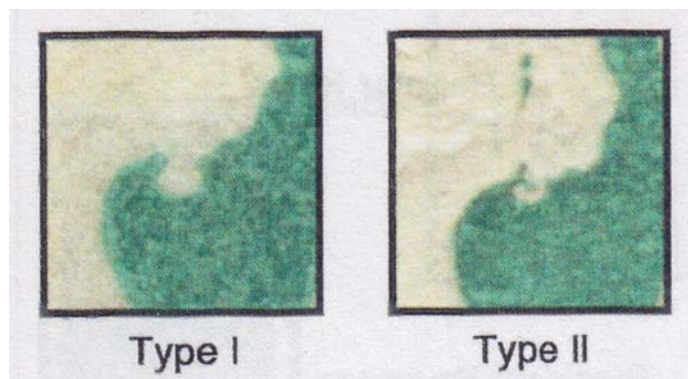

By Tim Balm, FICC #91

I just read some interesting information in the latest edition of Linn's Stamp News (June 18, 2018)...

One thing that caught my eye is that the price of India Sc#1 unused (it was issued as MNGAI – mint no gum as issued) jumped from \$1200.00 in the 2018 edition to \$3250.00. I have never seen a stamp jump in price by that amount – let alone the jump occurring amid a general price reduction in most stamps. Wow!!!!

The other thing that I found interesting was that Scott is now illustrating the two varieties of the Heligoland half-schilling stamp (Sc#1 versus #1A). The differences are in the shape of the curl below the hair bun (chignon). Using Scott's words, the curl is rounded in type 1 (Sc#1) and looks like an upside down question mark in type II (Sc#1A).

If your Heligoland stamp does not look like either of these, it may be a reprint or a forgery.

Catalogue Values of new Azerbaijan Sc#1-10

By Tim Balm, FICC #91

As discussed in the last Newsletter [V26N2], the Scott Catalogues have renumbered the Azerbaijan first issues into Sc#1-10 (on white paper) and #1A-10A (greyish paper). Previous editions of the Scott Catalogue gave SCVs for the greyish paper variety, and stated the white paper variety had values 5x that of the greyish paper. The 2019 Scott Catalogue lists the following values.

	10k	20k	40k	60k	1r
	Sc#1/1A	Sc#2/2A	Sc#3/3A	Sc#4/4A	Sc#5/5A
	mint/used	mint/used	mint/used	mint/used	mint/used
White Paper	\$0.40/\$0.40	\$0.40/\$0.40	\$0.40/\$0.40	\$0.55/\$0.55	\$0.90/\$0.90
Greyish Paper	\$0.25/\$20.00	\$0.25/\$20.00	\$0.25/\$30.00	\$0.25/\$30.00	\$0.40/\$30.00

	2r	5r	10r	25r	50r
	Sc#6/6A	Sc#7/7A	Sc#8/8A	Sc#9/9A	Sc#10/10A
	mint/used	mint/used	mint/used	mint/used	mint/used
White Paper	\$0.90/\$0.90	\$1.90/\$2.00	\$1.90/\$1.90	\$3.25/\$50.00	\$4.50/\$4.75
Greyish Paper	\$0.40/\$40.00	\$0.45/\$40.00	\$0.65/\$40.00	\$1.10/\$225.00	\$1.40/\$175.00

The above values indicate a comprehensive overhaul in the pricing of the both paper varieties.

First Issued Stamps of Bahawalpur

By Tim Balm, FICC #91

Many FICC members know that the “real” first issued stamps of Greenland were those listed in Scott as Q1a, Q3a and Q4a – the perf 12.25 parcel post stamps issued in 1905 to be affixed to parcels to and from Greenland carried by the Danish Postal Administration. The stamps and their story appeared in the V4N1, V6N5 and V15N3 issues of *First Issues*.

Perhaps some members also knew that the first issued stamps of Bahawalpur were actually the stamps for Official use (1945) and not the commemorative stamps of 1947. However, I was not one of those who knew this.

Because I collect the entire first issued set for each country – and not just the #1 stamp – I often include BOB (Back of the Book) issues that were issued at the same time as the first commemorative set. This is not a hard and fast rule for me, more of a “if I find such a set reasonably priced, I buy it” rule. Other than Greenland, I was unaware of any countries where the definitive/commemorative set was not the first issued. That changed when I was reviewing an auction house catalog that I had received in the mail and saw a Bahawalpur #O1-6 set for auction. For some reason (likely that I had nothing else I wanted to do), I decided to look in the Scott Catalogue and see if these were issued concurrent with the Sc#1 stamp.

To my surprise, Scott lists the #1 stamp as issued on December 1, 1947 and the #O1-6 stamps as issued on Jan 1, 1945 – nearly three years earlier. Wanting to verify this, I looked in my Gibbons catalogue and got my verification. [Note: Gibbons states the issue date for these official stamps as March 1 because they did not actually get put into use until then. However, FDCs exist with the Jan 1 date. So, I leave it to the readers to determine what date they want to use – if they care.]

Scott also states that there were two printings of the O1-6 stamps, “The first printing has brownish, streaky gum, and the second printing has clear, even gum” Gibbons, however, states “Nos. O1/2 ... with white gum appeared in 1949 and were included in the Silver Jubilee Presentation Packet.” There is no mention that the other official stamps were printed with the white gum.

Shown (at 80%) are the backs of the O1-6 set that I bought. O1-O2 have the white gum, O3-O6 the brown gum.
